The turquoise splashes of bright petals on top of the delicate gold frame create a charming contrast between the exact geometry and the wistful curves of the live dynamic lines.

The intricate motive of the palatial garden gains a completely new look thanks to the fantasy of the designers. This eternal combination of blue and gold carries hundreds of meanings: "fire and ice", nature and human creation, energy and poetry.

# Poppies

Poppy flower, a symbol of eternal love and boundless freedom has coloured the summer green with its scarlet waves. Turquoise, green and white create a happy feeling and a bright backdrop for the main colour – scarlet.

The movement of the grass and the shivering of the gentle translucent petals, burning in the sun is translated in the black and gold lines. Besides that, the poppy is also a magical flower belonging to the young mighty god HYPNOS, who brings the coloured dreams.

A precious jewelry dream comes to life starting with the vivid imagination of the artist and the vibrant sketch of the designer. To make the coloured dream a wonderful reality, the masters of enamel create real works of jewelry art. The nature itself serves unlimited palette of colours and tones. The advantages of the hot enamel are truly priceless, as they are based on entirely natural materials and the mighty fire which melts all the colours and layers into one – serves as the guarantee of longevity.

The jewelry technique of enamel application has remained unchanged for hundreds of years and always is the hand craft of masters of highest qualification, who bake and polish the noble enamel layer by layer. This is how an enamel miniature is filled with a range of colours and shades, resembling the canvas of the artist, framed and ready to be presented in all its glory.

And now in their delicate COLOUR DREAMS jewelry frames bloom wondrous flowers and the fragrant fruits are filled with sunshine. COLOUR DREAMS – is a bright palette of stylish accessories, able to colour the routine with vibrant colours and become a precious beginning of the most magical and happy tales.
